

Creating business opportunities through referrals.

membership overview

INCREASE YOUR REFERRAL BUSINESS

Most small businesses rely on referrals not only for the health of their organization, but for growth. There is no single more effective way of obtaining new clients than through a strong referral network like offered through CaerusNet. All referral teams are trained to focus on mastery of the two most important elements of successful referral teams: passing referrals and strengthening the membership size of the team.

CaerusNet is the next generation of small business networking. It assembles and facilitates small business referral groups to help them master the Art of Referring.

When it comes to Referral Marketing,
there's no place like CaerusNet!

Would you like more REFERRALS?

CaerusNet referral teams are lead by a trained Meeting Facilitator*, who runs every meeting and administrates all of the duties related to developing and maintaining long-lasting referral teams in the local markets they serve.

If your business model counts on referrals for its success, belonging to a facilitated referral team may effectively increase your bottom line as you learn to join forces with other, like-minded professionals who also wish to grow by referral.

Our dedicated referral teams are actively seeking high quality new members from all different types of professions to learn how to pass referrals to. All existing team members seek in return is that new members give an honest effort to be willing to learn how to give referrals back into the team too, so everyone can win.

Do you possess the qualities of a good referral team member? You do, IF ... you're an expert at what you do, you're fun to be around, AND, you're coachable, accountable, professional, action oriented, results driven, sincerely like to help others, can keep commitments, and have strong follow up skills!

Don't lose out to the competition! Once a CaerusNet Referral Team has 30 members, it will become closed off to new membership and a waiting list process will be established.

What is the Cost?

\$100 one-time orientation and materials fee

Membership Fees and dues must be paid for by automatic checking debit (ACH), absolutely no exceptions.

\$35 monthly membership dues

Even though Monthly Membership Dues are "pay as you go" (monthly), all members have verbally agreed to make a "12 month mental commitment" to the process for team stability and unity.

Approximately 38 weekly team meetings per year

CaerusNet Referral Team meetings are weekly, other than nationally observed holiday weeks and scheduled "recharge breaks." A yearly meeting schedule is published at the beginning of every calendar year.

** Every Meeting Facilitator is an independent contractor who has been granted the use of the CaerusNet Referral Team System in their consulting practice.*
